People across the United States who are using or who have used our wonderful DRI WASH 'n GUARD® WATERLESS CAR WASH PRODUCTS; are looking for a distributor in their area who they can get the DRI WASH 'n GUARD® WATERLESS CAR WASH PRODUCTS from.

Therefore, new business owners can make immediate income by:

1. **Selling or Retailing:** Selling or retailing product to customers directly by demoing the product and selling it to a customer right on the spot.
2. **Detailing:** Using products out of their own store in their own Detail Business: DRI WASH 'n GUARD® WATERLESS CAR WASH products eliminate the hassle of having to deal with water reclamation or water containment or water spots. You can go directly to the customer and detail where their vehicle is parked. There is no expensive equipment needed. Just product, small vacuum, a few brushes and towels.
3. **Reorder Income:** Once a customer uses Dri WASH 'n GUARD® WATERLESS CAR WASH they will contact you to reorder. Customers come back to restock, i.e. repeat customers.
4. **Wholesale Commissions:** This is where the residual (continuing) income comes into play. When a current customer becomes a distributor, they will start purchasing product by the case at wholesale prices directly from the company and you will receive a commission on every product they purchase.
5. **Directors Overrides:** When distributors you have sponsored into the business become Directors and purchase product at the highest discount level, you will receive a commission on all purchases made by them because you sponsored them into the Dri Wash 'n Guard® Waterless Car Wash business.

Making money can be made easy! By doing three to five “30 second demos” a day with the Dri Wash 'n Guard® Waterless Car Wash products, you “Simply let the salesman out of the bottle!” The demo does the selling and you should start pocketing extra cash. How much easier could it be?

New Distributors can also earn additional income by helping others start their own Dri Wash 'n Guard® Waterless Car Wash business. You as their sponsor would receive a percentage commission of every purchase they purchases from the company. Again, how much easier could it be?
